Summary

AWS Certified Solutions Architect with hands-on experience building cloud-native infrastructure and CI/CD pipelines using Terraform, Docker, and GitHub Actions. Deployed secure, scalable applications on AWS using best practices in networking, IAM, and cloud security. Passionate about DevOps automation and infrastructure as code.

Education

- Currently pursuing (**BSc IT)**, Techspire College, Kathmandu
- **SEE & +2** - Skyrider English Boarding School, Chitwan

Cloud & Technical Skills:

- AWS: EC2, S3, EBS, EFS, IAM, VPC, CloudFront, Route-53, ECS, ECR etc.
- Languages: Python, SQL
- Linux & Networking: Linux server administration, SSH, TCP/IP, DNS, HTTP/HTTPS
- CI/CD & DevOps (Foundational): Git, GitHub, GitHub Actions (CI/CD), Docker, Terraform, Ansible
- Monitoring: AWS CloudWatch (basics)
- Container Orchestration: Kubernetes (basics)

Certifications:

- AWS Certified Solutions Architect – Associate
- AWS SimuLearn: Solutions Architect
- Python & SQL Fundamentals – Programiz pro
- GitHub Foundations – Datacamp
- Docker Course for Beginners – Kode Kloud

Projects:

Cloud-Native Static Website Deployment on AWS using Terraform

- Designed and deployed a highly available static website using S3 + CloudFront + Route53, improving global content delivery and reducing latency using CDN.
- GitHub: https://github.com/ShalinTimalsina/Terraform_Projects/

Docker Application Deployment with CI/CD Fundamentals

- Built a simple Node.js application using Docker with Nginx reverse proxy, SSL, and a basic CI/CD pipeline using GitHub Actions.
- GitHub: https://github.com/ShalinTimalsina/docker-nginx

End-to-End Full-Stack Application (Frontend, Backend & Database)

- Developed a containerized full-stack application with automated CI/CD pipelines, designed following AWS cloud and DevOps best practices
- GitHub: https://github.com/ShalinTimalsina/FastAPI-Practice-Project
